GOZALOE ENRIE, EXFINANCIAL AGENT OF OROZCO REBELS, IN EL PASO JAIL

Continued from page 1

whom the officers say is one of the revolutionary agents who is being sent to Canada to negotiate the loan with the Canadian bankers for the revolution. He likewise was held by the rangers, but was released Monday.

Several days ago Enrie sent three suit cases to Juarez consigned to Pomposo Gonzalez, collector of customs, with instructions that they be placed in the vault there to await his instructions. This was done and last night when he arrived he brought with him three suit cases. After he had taken them to the home of Gonzalez, he asked that the suit cases which were in the vault be given him. This was not done. The suit cases were turned over to the officers of the town. It is believed that they contain valuable papers of the revolution.

Enrie has been one of the most prominent in the revolution, and second only to Orozco in the part he took in the present rebellion. He became known to the Americans by his anti-American manifesto and later by an inflammatory letter to the president, which was sent from Juarez, bearing the name of Orozco, which Orozco later denounced. He is said to have always been a close friend of the Americans and showed this in his manifesto and later in the letter to the president. However, when he saw that he was going to die if his wounds were not properly treated, he hurried to the United States for treatment.

The soldiers at the Santa Fe bridge first detained Enrie when he came over until he could be identified. Powell Roberts, who only a short time ago was arrested by the rebels on a charge of being a Maderista spy and was released on the demand of the state department, was the first to identify him and Enrie was released.

Following the arrest of Enrie, Mexican consul E. C. Lorente and many of his staff were sent to Mexico City in forming president Madero of the arrest. It is said the consul will attempt to save Enrie by offering to Mexico the charge of embezzling consular funds while representing his government as consul at Clifton, Arizona, prior to the present rebellion. Enrie has retained an attorney and is going to fight the case, however. His attorney claims that the charge is a trumped up one and that Enrie cannot be held by the United States for violating any neutrality law, as he has not committed any offense that is the line for which he could be held.

Was Power in Rebel Ranks.
Enrie is known to have been the man who secured the money to aid the rebellion and when it became known among the rebels that such was the source of much of the money supporting the rebellion, Enrie was held as a traitor. He was held in the hospital since that time.

While he was in power as financial agent, Enrie ran things as a high hand and often times held up messages intended for Orozco and sent messages, so the rebels charge, in the name of Orozco.

It was the opposition of Enrie that resulted in the refusal of Orozco to recognize the provisional presidency of Vasquez Gomez and it was Enrie, it is said, who supervised the negotiations between Gomez and Orozco. It was on the day of the flight of Gomez that Orozco removed Enrie from office.

Declares Arrest Unlawful.
"I come to this country to be under the free flag to be cured, and I am arrested and placed in a warm cell," said the statement Enrie made Sunday night through the bars of his cell door to a reporter for the El Paso Herald.

"I think my arrest is unlawful," he continued. "There is nothing against me, nothing issued. I inquired up to this before I decided to come to El Paso from Juarez. There was no inquiry made against me. I arrived in Juarez Saturday in a special car, and would have come to El Paso the same night, but I wanted to find out if there was anything for which they would arrest me. I could find nothing, and I do not think there is anything. Of course there will be to-

day. The ranger who brought me here said that he had a right to hold me until he saw the United States commissioner to give him some information.

Tells of His Arrest.
"I was coming over to El Paso in an automobile in an open way. Raul Randoval was with me. The immigration officer came and stopped me first, and then said we could proceed. We reached the soldiers and were again held up. I grew suspicious, and when they asked me for my name, I said it was G. Estrada. You see those are my initials. I think the soldiers had my right name, Enrie. They held me until they had telephoned the Mexican consul, and then Felix Sommerfeld and Abe Molina came down. They identified me as Enrie, and then I was turned over to the ranger, Sommerfeld was very cynical. He said that he would much rather have me than to have Orozco."

Says He Is Very Sick.
"I am very much surprised over my arrest. I am not guilty of anything. I am not guilty of any violation of your neutrality laws, and I consider my arrest unlawful."

"I am a sick man," (and Enrie tapped his chest where he was stabbed by the unknown Mexican some time ago on one of the streets of Chihuahua while he was on his way to his home.) "The ultimate of Chihuahua did not agree with me and I came to El Paso for medical treatment; that is all. I do not know who stabbed me. It was about 4 o'clock in the morning when I was on my way home. In going down one of the little side streets of Chihuahua, a man jumped out from behind a building and shot me in the chest with a knife. I threw up my right arm and received the first wound in the chest. The man then came and finally got me down when he stabbed me in the chest right over the heart. While I was holding my assailant by the throat, another fellow jumped out and bludgeoned a pistol against me, fired. The bullet just missed my heart. I consider it a miracle that I am still alive."

"I have had a good deal of trouble with my wounds. The climate of Chihuahua does not agree with me, and for that reason the doctors here have not been able to cure me. I am a sick man, and this is a very warm cell."

Enrie, when questioned about the movements or the conditions of the revolutionary party stated that he did not care to discuss those matters. That an effort would be made to extradite Enrie was contained in the statement made Sunday afternoon to the effect that Mexican consul Lorente had received a telegram from Mexico City containing the order to file an extradition process against Enrie. It was stated that the order was not a complaint had been filed against Enrie. Ranger Webster when asked if he had arrested Enrie on any charge, stated that the prisoner was being held as a rebel prisoner, and further that there was nothing to give out.

Enrie's Family Here?
A family believed to be that of Enrie, came to Juarez on the same train in which the former rebel came to Juarez, and are now in El Paso.

The family, in which there were several members, women and children, said their names were Estrada and that they were the relatives of Luis Estrada, one of Orozco's secretaries.

This is the same name given by Enrie to the American consuls when he was detained at the Santa Fe bridge and it is believed that the persons in the coach were Enrie's relatives.

**ENGLISHMAN SAYS REBELS
BURNED HIS HOME AND FAMILY**
Phoenix, Ark., June 16.—With a story of how his wife and two babies were burned to death in their home near Tepic by roving bands of rebels, George Arnold Brown, an Englishman, passed through Phoenix on his way to Los Angeles, where he will lay his case before the British consul. Brown said the rebels set fire to his hacienda near Tepic in his absence and could not leave. The rebels went back to his place under the pretext of killing or robbing him and his two children. He declared conditions in and around the city of Tepic and in the state of that name were horrible.

HUERTA CONFIDENT OF COMING VICTORY

Federal Headquarters Are
Now Located at Santa
Rosalia.

At general Huerta's federal headquarters, Santa Rosalia, Mex., June 10.—The entire division of federal troops commanded by Gen. Huerta, has moved into camp here, though the outposts today are within 30 miles of Chihuahua pass, where the rebel forces, Gen. Orozco are gathered. Government troops have approached in scouting parties less than 70 miles from the city of Chihuahua, the objective of the present federal campaign and ex-bank.

Twenty-two bridges destroyed by the rebels on their northward retreat are being repaired by 1,000 workmen. The directions of the government engineers and the Mexican Central railroad is expected to be in complete operation from Torreon to this place, a distance of nearly 200 miles, within two days. The big bridges at Jimenez and Santa Rosalia are expected to be restored by tomorrow. Repair gangs are moving both north and south with Santa Rosalia as a base.

General Huerta was enthusiastic today over the prospects of entering Chihuahua before the end of the month. He expressed much satisfaction at the reported rout of the rebel forces of Campa and Arguemedo. At Santa Rosalia, as this rebel movement aimed at the federal rear has threatened for some time to embarrass communication of the government columns with their base of supplies at Torreon. The rebel forces have by no means been dispersed, however. In the Torreon district, but reports to General Huerta from Gen. Blanquez declare the latter has surrounded the insurgents and is confident of ultimate success.

AUGUSTINE ESTRADA IN EL PASO JAIL

Augustine Estrada, former colonel of Maderista troops, who was in command of the rebel garrison in Juarez when it mutilated last winter and looted the town, is now in the El Paso county jail. Opposite his name on the jail register is written "ranger prisoner." No charge having been made as yet, although it is understood the Mexican federal authorities caused his arrest and will attempt to extradite him on some charge.

Estrada has lately been engaged in the mining business at Pinos Altos, N. M., where he and three other associates have been working a mine which Estrada obtained control of immediately following the mutiny in Juarez.

Estrada's friends say that he is still loyal to the Madero government. A complaint was filed against Augustine Estrada by Mexican consul Lorente Monday and it will be necessary for the former Juarez commander to remain in jail 40 days without bond to give the Mexican government a chance to prove the charges that there is a charge of against him in Mexico.

ALL AMERICANS BUT A FEW QUIT CHIHUAHUA.

Chihuahua, Mex., June 10.—Jose Cordova, secretary general of the revolutionary army, said today that Gen. Orozco's staff announced today that they were preparing a manifesto reiterating that all foreigners, their property and interests in the rebel zone will be given respectful consideration. Every possible guaranty of safety, will be afforded, they declared.

REBELS WOUND AMERICAN IN TERRITORY OF TEPEC.

Mazatlan, Mex., June 10.—R. H. Ward, an American, residing at Yago, territory of Tepic, was shot and dangerously wounded by rebels early today, according to advices received by the American consul here. Ward was wounded when he was detained by the summons of the robbers who visited his home.

HELD "BY MISTAKE."
An El Pasoan, R. A. Martin, was arrested in Juarez Sunday by three policemen and taken to headquarters, where he was detained an hour for the arrival of Col. Orozco. Upon brief examination he was immediately released. Martin was mistaken for another. No charge was filed against him and he was not told why he was detained even one hour.

By paying the streets you pave the way to success.

MADERO'S BROTHERS HAMPER GEN. HUERTA

Interfere With His Orders to
Execute Villa; the General Resigns.

Mexico City, Mex., June 10.—A report that Gen. Victoriano Huerta has forwarded his resignation as chief of the army in the north, his action growing out of the altercation that resulted in Francisco Villa's arrest, is current in the capital, though denied by persons close to the president and ex-bank.

Villa was alleged to have struck Gen. Huerta and to have been ordered summarily shot by the federal commander for his act of insubordination. Interference by Emilio and Raul Madero, brothers of the president and commanders of the auxiliary forces under Gen. Huerta, are said to have saved the life of the honorary brigadier general and ex-bank.

Gen. Huerta, resenting the intrusion upon the unlimited authority conferred on him in the north, is reported to have sent his resignation by the same train that brought Villa a prisoner to this city.

When the report was first made, it was allowed to take a certain turn, denied by Huerta on the ground that on previous occasions Villa and his men had abandoned themselves to sucking and pillaging, is said to have been the cause of the disagreement.

It was said that a time threatened to split President Madero's cabinet, was averted Sunday through the resignation of the federal commander in the federal district. Friction between Rivera and Jesus Flores Magon, minister of the interior, had been frequent and it had been an open question which of the two would resign. Federico Gonzalez Garza, private secretary to the president, said that Rivera, Garza was secretary of the El Paso junta during Madero's revolution.

EL PASO WILL BE FULLY PROTECTED

Congressman Smith Says the
Second Cavalry Will
Have Horses.

Washington, D. C., June 10.—"You can say for me that nothing will be done by the war department to deprive the people and property of El Paso of adequate protection," said representative W. H. Smith, of Texas, to The Herald correspondent today. He made the statement after receiving a telegram from El Paso expressing fear that when the Fourth cavalry is removed from there the second cavalry, which will replace it, would not be provided with horses. The second cavalry is coming from the Philippines without horses.

"The fears are groundless," said Mr. Smith. "I feel sure that if the Second cavalry is stationed there, horses will be provided for them. Col. Stever will remain in command of the troops."

Mr. Smith went to the white house about the matter today, but the president is out of the city.

LEGISLATING WOOD OUT OF OFFICE

Senate Passes Appropriation
Bill Which Will Have
This Effect.

Washington, June 10.—The senate today, after a bitter debate, voted 27 to 24 to agree to the conference report on the army appropriation bill carrying amendments which will legislate Maj. Gen. Leonard Wood out of his office as chief of staff on March 4, 1913.

INTERURBAN PETITION FOR FRANCHISE IS SUBMITTED TO THE COMMISSIONERS

Action Deferred Until Made
More Specific; Irrigation
Plan Submitted.

The petition of T. M. Wingo and others for a franchise for the term of 50 years, and right of way to construct and maintain the proposed interurban running from El Paso to Ysleta which was presented to the county commissioners Monday morning, was considered "too sweeping," and was passed up by the commissioners until 2 o'clock Monday afternoon when the promoters met with the commissioners to settle on an application more specific in its nature.

The Petition.
The following is the petition for the interurban franchise:

"I, T. M. Wingo, of the county of El Paso, and state of Texas, do for myself, my associates and assigns, hereby petition your honorable body to grant, for the term of 50 years, subject to all rights, privileges and franchises of David M. Goodrich, his associates and assigns the right, privilege, franchise, and right of way to construct, maintain and operate along, over and across the county of El Paso county, now, past and future, and established, leading from the city of El Paso to points in the Rio Grande valley, and roads which may turn out, or defect therefrom, suitable roadways with tracks, switches, curves, and turnouts, and other necessary special work, together with the necessary poles, overhead wires, transmission lines, stations, houses and all other needed or convenient appointments for an electric interurban railway, and to an electric interurban railway, and to operate thereon electric cars and electric trains composed of two or more cars, for the carriage of passengers, parcels, express and freight for hire, provided that if the grade, now or hereafter established, of any roads used hereunder, shall be impaired by the construction or maintenance of such roadbed or tracks, that we shall restore such grade of such roads to its former state of usefulness for public travel and shall keep our right-of-way in reasonable repair and efficiency for the public use and travel."

"The right-of-way hereby prayed for to be not more than 12-1/2 feet in width, except for double tracks and turn-outs in which case same to be not more than 25 feet in width, and such right-of-way to be taken along only one side of such roads at any one place, though the right to cross and recross such roads, without impairing their reasonable usefulness for public travel is prayed for, and we ask that the right, privilege and franchise hereby prayed for shall apply to all incorporated towns in this county, with the privilege of securing the middle of the streets in such unincorporated towns."

The petition was signed by T. M. Wingo.

Think It Too Sweeping.

County judge A. S. J. Eyal read the petition to the commissioners at the conclusion of which they voiced their opinion that it was entirely too sweeping, and it was necessary for the promoters to be more specific. It was also agreed among the commissioners that the promoters of the interurban be advised to make a written statement to them as to what point they intended running the road, and the route to be traversed, the commissioners relating the right to pass on the proposition. The commissioners further stated that until this was done the actual work of construction on the interurban would be held up.

Ysleta May Object.

It was brought out at the meeting Monday morning that the citizens of Ysleta, hearing the report to the effect that the promoters of the interurban did not intend running the line to that town, stated that unless the road extended to the middle of that town, they would ask for a cancellation of their subscription made to the road.

After discussing the matter the commissioners decided to adjourn until 2 o'clock when the promoters were asked to meet with them. In the meantime, judge Eyal stated that he would prepare a number of provisions to be added to the petition for the franchise to be taken up at the meeting Monday afternoon. Among these provisions it was decided to add the one to the effect that the franchise shall not be exclusive.

feet that the franchise shall not be exclusive.

Plan Irrigation Improvement.
El Paso county is to have an excellent system of irrigation if the movement set on foot by John Wyatt and others, and heartily concurred in by the commissioners, materializes.

In the petition presented to the commissioners Monday morning it was recited that the ordinances and by-laws for the control of the local irrigation systems, passed by the commissioners' court at the request of various irrigation companies, should be made more comprehensive in order to better control and regulate the care and distribution of the water. The petitioners considered the irrigation laws of Texas meager, uncertain, and difficult to enforce.

To Hear Discussion.
In that connection the commissioners were asked to appoint a day for a special meeting of the court at which time a discussion and consideration of irrigation ordinances and by-laws be invited on the part of those desiring a better irrigation system for El Paso, it is proposed to incorporate the suggestions and ideas advanced at the special meeting in a bill to be presented to the next session of the Texas legislature. The purpose is to give the state a thorough and modern irrigation code. The petition was signed by John Wyatt, Lamar Davis, T. M. Wingo and J. F. Priman.

The commissioners fixed July 9 as the day for the special meeting.

The County's Health.
The monthly report of the county health department for May 1912 was as follows: Number of entered the hospital department of county poor farm, 41; number left, 39; number at present in the hospital, 34; number treated during the month 72; average number in the hospital for the full month, 33.12.

The number of patients seen in the clinic was 556, and the number of consultations was 903. Visits made in the city were 127. The cash taken in at the clinic amounted to \$23.59.

Richard John, who has been in the county hospital for the past year, will be sent to his married sister in Chihuahua by the commissioners who issued an order to purchase his transportation. John is one of the pioneer residents of El Paso, having lived here 25 years.

Map Is Accepted.

The map of San Elizario island prepared by De Shazo and Atwood in pursuance to a contract made with the commissioners three years ago was accepted Monday morning, and an order for \$100 was drawn, this being the amount said to be due on the contract. The map, which is complete in every detail will be framed and hung in the county clerk's office.

It was ordered that George N. Beakley be placed on the pay roll of the county as stenographer of the 34th district court. Beakley takes the position resigned by W. H. Fryer.

The application of J. H. McElbroom for a cancellation of double tax assessment was referred to the county judge and the county tax assessor with power to act.

The question of establishing the county experimental farm was brought up, but no definite action was taken on it.

SMALL BOY FROM NEW MEXICO SENT HOME BY POLICE

Regino Leon, 9 years of age, of Mogollon, N. M., was having the time of his life in El Paso when he was rudely interrupted by the police, and sent home to his mother Sunday.

Regino came here about one month ago with one of the neighbors to meet his older sister. For some reason the meeting never took place, but Regino did not seem to mind. The neighbor secured a room for him on Stanton street, and left him some spending money. This Regino was spending, taking in the eastern drama. The police considered that Regino was too young to be traveling alone, so they sent him home.

MONITOR.—Notice is hereby given that there has been seized in this collection district, for violation of the customs laws, one brown horse with Mexican brands, which will be sold in front of the Custom House, El Paso, Texas, at 10 o'clock a. m., June 18, 1912. Anyone claiming the same is required to appear within the time prescribed by law. Alfred L. Sharpe, Collector of Customs.
